

Simpli Piano

Learn to play the piano, one note at a time.

A simple, friendly way to start — even if you've never played.

Simpli Piano shows you which note to play, you play it, and it tells you right away whether you got it. Every note appears two ways at once — on the music staff and lit up on the on-screen piano. Play on a real piano and let the app listen through the microphone, or play right on your iPad.

Free · No ads · Works offline · A step-by-step course, a chords path, a note-reading trainer, play-along songs, and free play.

Get it on your iPad — free

<https://conikersystems.github.io/simpli-piano/>

1. Open that link in Safari on your iPad or iPhone.
2. Tap the Share button (square with an arrow).
3. Choose “Add to Home Screen.”
4. Tap Add — a Simpli Piano icon appears.
5. Open it from the home screen. It works offline.
